

## **Brandon Elms**

Project Manager

**Education** Bachelor of Business Administration, Finance  
Texas Christian University

**Certifications** LEED Accredited Professional

**Experience** Brandon Elms has 10 years experience in property, project and relationship management. He is currently involved in projects with The Fort Worth Zoo and the new Botanical Research Institute of Texas. Previously, he has managed design and construction projects for museums and Class-A office buildings, tenant relocation, and retail center improvement projects.

His management and leadership skills allow him to direct multiple project teams simultaneously while completing projects on time and within budget. In addition, his experience includes managing the design of LEED projects, which requires a watchful eye and strict documentation. His strong commitment to his clients and that of the team allow him to make a variety of contributions to any given project.
