TO WHOM IT MAY CONCERN

In all of my professional career I have never had the pleasure of working with a more competent, efficient, compatible and empathetic group of individuals than those associated with The Projects Group. They have made our complex \$47.5 million project a relative piece of cake for me and my staff. From the very beginning of this project through to what is nearly its end, they have provided leadership, management, attention to detail and, when needed, sympathy. We are looking forward to beginning the construction of the building with a great deal of anticipation, not only because of the delays that was created for us by local circumstances, but because we know that The Projects Group will be with us all of the way down to the point when the last nail is driven and we close the doors behind us in our offices.

The staff of The Projects Group are the most highly skilled professionals in the business that I have ever encountered. I cannot fully express the debt of gratitude that my organization owes this group for their work that has kept us on target and well within budget. I would not hesitate to use them for any other project we will have in the future.

I would be pleased to respond to any questions about The Projects Group.

Sincerely,

S. H. Sohmer  
President & Director
